Objectives

Defining a key message
Structure a presentation
Understanding what happens in front of an audience
Know the range of presentation techniques
Hints and tips for effective presentation
Maintaining confidence and handling nerves

Program

Opening

Combine a look at the fundamentals of presenting, with an assessment of each person's experience and skill, together with what they would like to achieve.

First Presentation in front of camera

A short unprepared presentation to camera.

Here the course concentrates on defining a clear message and techniques to deliver it.

Short filmed exercises

Exercises may vary:
Making a 30 seconds presentation
Putting across a clear message
Using passion to present

Practice the 30 seconds presentation in front of camera

The presentation material is used to stretch the participants and to incorporate the principles worked on earlier in the day.

Teaching method

- Based on both theoretical lectures and practical case play
- Interactive video exercises (viewing - on video screen and personal feedback)
- Practical casework and presentations role plays
- Observe a live video speech and comments

Target Population : Anyone who occasionally present in public.

Prerequisites : None

Competency Developed

Raising confidence - Clear delivery - Communicating concepts quickly - Structuring your presentation opening and conclusion

Further Learning Opportunities : Advanced presentation skills online coaching
